

# Driver or Passenger Gains Awareness

**WARNING:** Cues Are Not to be read while the car is moving.

## Selective Attention Matrix

Search the **A Zone** for Speed Selection

## Print and Use Cue Card

**Print this sheet** of the CUE Card. Fold into quarter sections. Use the glove box as a holder to make one Cue visible to you. Let it be a reminder of how to use the Selective Attention Matrix. Evaluate a "go" or "slow" condition to increase your awareness.

**Directions for use:** Before placing the Cue Card in your glove box holder, read the information. Then practice finding "Slow" and "Go" conditions in the A Zone Window. Think of the speed to use as you approach closed front zone conditions. Practice until actions start to become automatic.

**Go Condition** means you have an open "A (Front) Zone" with space to enter.

1. Keep Same Speed  
or
2. Increase Speed

**Keep Speed**

**Slow Condition** requires a speed reduction, which could be achieved by any one, or all three, of these techniques:

1. Ease Off Gas Pedal
2. Cover Brake
3. Apply Brake • Check Rear

**Reduce Speed**

**"Go" or "Slow" • Check Rear**
