

**Co-Driver's Tpeg for a Left Turn** is when the mirror is aligned with the target. **During turns**, observe the Tpeg approaching the target.

**Co-Driver's Tpeg for a Right Turn** is when the corner post is aligned with the target. During turns, observe the Tpeg approaching the target.

**Practice while you're a Pedestrian, or as a Co-driver.**

1. **Select a target** before a turn is made.
2. Turn head aligned with the Target.
3. See if POT is Open or Closed.
4. Turn body, or see car, towards target.
5. Recognize when you're at the TPeg.
5. Visualize when you're **On Target**.

Develop **habits to prevent, detect, and correct** a skid before you begin driving. And, when you are a driver, you will have excellent use of vision to steer the car.

**Practicing Skid Control**
